The use of Information & Communication Technology (ICT) is very pervasive nowadays. This has been the consequence of rapid developments in the ICT industry. The accelerated developments inevitably create skills & knowledge gaps that must be addressed by institutions of higher learning. College of Computing and Informatics (CCI), Universiti Tenaga Nasional (UNITEN) has been playing its role in bridging the gaps since many years & is positioning itself better for this venture into the future.

CAREER PROSPECTS

In general, graduates in an ICT field of any specialisation should be able to be employed in any of the following career

- Programmer Information Technology Executive
- System Analyst
- Information Technology Specialist Teaching (Universities or Training Institutions)
- Information Technology Trainer
- Helpdesk Analyst
- - Information Technology Consultant

However, with specialised knowledge in some particular areas, graduates may perform better in their specific jobs. This is well reflected in our degree programmes with six fields of specialisation. The following are some jobs specific to the areas of specialisation:

Bachelor of Computer Science (Software Engineering) (Hons.)

- JAVA/ J2EE/ PHP/ .NET Developer
- Software Tester
- Solutions Architect
- Software Quality Assurance

Mobile Application Developer

(HPC) software developer

(HPC) system engineer

System Integrator

High performance computing

Computer & Network Researcher

Advertising ManagerProduct Development Manager

Business Intelligence Analyst

Media Analyst/Strategist

. Bachelor of Computer Science (Systems and Networking) (Hons.)

- Embedded System Programme System/ Network Engineer
- System / Network Consultant
- System/ Network Administrator
- Bachelor of Computer Science (Cyber Security) (Hons.)
- Security Auditor Information Security Officer Security Consultant
- Penetration Tester/Vulnerability Assessor Security Engineer Security Incident Responder

Data Scientist

Security Analyst

Bachelor of Information Technology (Graphics and Multimedia) (Hons.)

Creative Designer

Secure Software Developer

Security Administrator

- Instructional Designer On-Line Publishing Editor/ Designer
- Game Programmer Game Tester IT Support/ Helpdesk Installation Artist
- . Bachelor of Information Technology (Information Systems) (Hons.)
- Database Administrator Information Systems Manage Consultant ystem Analyst
 - IT Technical Support Officer Systems Developer

•••

. Bachelor Of Information Technology (Visual Media) (Hons.)

- Ringing Technical Director Motion Graphic Designer Production Coordinator

Visual Effect Artist Game Designer

Video Editor

PROGRAMMES OFFERED

- A. Bachelor of Computer Science (Software Engineering) (Hons.)
- B. Bachelor of Computer Science (Systems and Networking) (Hons.)
- C. Bachelor of Computer Science (Cyber Security) (Hons.)
- D. Bachelor of Information Technology (Graphics and Multimedia) (Hons.) E. Bachelor of Information Technology (Information Systems) (Hons.)
- F. Bachelor of Information Technology (Visual Media) (Hons.)

LABORATORY FACILITIES

The following are the dedicated laboratories for students CCI:

- CISCO Lab
- Embedded System Image Processing
- Virtual Reality
- Parallel Programming Software Engineering Lab

FOLLOWUS

The College Information portal (CIP) is an alternative medium of information dissemination for the College of Computing and Informatics (CCI) at Uniten. At present, the main function of this portal is to disseminate information pertaining to the College's operations, which include announcements of deadlines (for examination, report submission, perfomance review exercise, call for paper, etc.), research activities,
